EY DWG Assistant - AutoCAD Annotation SOP for Geometry Quantity Extraction

This SOP defines the mandatory annotation format to ensure successful automatic quantity extraction from AutoCAD PDFs.

General Rules

• One quantity annotation per TEXT/MTEXT object.

• Format: [Optional -] Shape - Element - Dimensions

• Always use Shape Name exactly as defined in Shape Master.

• Dimension Label must come before Value.

• Use x as separator between dimensions.

• Use - at beginning for deductions/openings.

Examples

• Solid Cylinder - Raft - Dia 28000 x Depth 3500

• Hollow Cylinder - Shell Wall - Outer Dia 25200 x Inner Dia 22800 x Depth 9000

• Cuboid - Pedestal - Length 5000 x Width 3000 x Height 2000

• - Cuboid - Opening OP1 - Length 5000 x Width 5500 x Height 500

Supported Dimension Labels

• Dia, Diameter

• Outer Dia, OD

• Inner Dia, ID

• Length

• Width

• Height

• Depth

• Thickness

Do Not Use

• 28000 dia

• 5000 length

• commas instead of x

• multiple annotations in one text object

Shape Templates

- Solid Cylinder - Raft - Dia 28000 x Depth 3500
- Hollow Cylinder - Shell Wall - Outer Dia 25200 x Inner Dia 22800 x Depth 9000
- Hollow Cylinder by Thickness - Shell Wall - Outer Dia 25200 x Thickness 600 x Depth 9000
- Cuboid - Pedestal - Length 5000 x Width 3000 x Height 2000
- Cube - Block - Side 1500
- Cone - Hopper - Dia 12000 x Height 8000
